

INTEGRAL WATERPROOFER

WATERPROOFING PLASTICISER

TBS Integral Waterproof is a liquid additive that provides long term water protection to mortar, concrete and rendering. It improves workability and strength, and will not corrode reinforcing metal work.

TBS Integral Waterproof is suitable for all applications where resistance to water damage is necessary including external rendering and pointing, roof areas and structures below ground level.

TBS Integral Waterproof:

- Waterproofing plasticiser for mortar concrete and rendering
- Dramatically reduces water penetration
- Protects against erosion from water ingress
- Salt inhibitor
- Eliminates suction
